

DAVID W. SWINDLE, JR.

Mr. Swindle is currently an independent Defense & Energy services consultant specializing in strategic planning, management systems, and business operations for government and commercial clients. Prior to starting his consulting practice in September 2008, Mr. Swindle was President, IAP Worldwide Services, Inc., a privately held \$1B+/annum facility management, logistics, contingency and disaster response technical services firm, with over 5500 employees and operations in more than 27 countries. As IAP's President, Mr. Swindle led the firm's domestic and international operations, business development, strategic planning, government affairs, public relations and corporate communications. During his tenure at IAP, the firm consistently maintained double digit margins and delivered EBITDA exceeding service industry averages.

Prior to joining IAP as President, Mr. Swindle was Vice President, Business Acquisition and National Security Programs, for KBR's Government and Infrastructure Division; this division included KBR Americas, Asia-Pacific, Europe-Africa, and the Middle East, which had combined revenues that exceeded \$10 Billion. Mr. Swindle led a team of over 80 business development and proposals specialists, and communications and government relations professionals located world-wide, that developed and provided construction services and program management; site operations and facility management, special projects and engineering services, for Federal, State and Local Governments, and selected commercial international clients. Prior to assuming this key leadership position, Mr. Swindle was Assistant General Manager for EG&G's Engineering and Technology Services (ETS) Division with responsibilities for EG&G's National Security Programs.

He has over 30 years of direct experience with program management including P&L responsibilities for defense, aerospace, national and homeland security, intelligence, contingency operations, logistics and nuclear industries. He has worked extensively in the Middle East over the past 20 years in international disarmament/nuclear safeguards and treaty verification for the International Atomic Energy Agency and the United Nations, and in contingency operations supporting the US, UK and NATO military commands.

In September 2006, Mr. Swindle was appointed by the Secretary of the Army to the Army Science Board for a three year term. He recently completed an effort assessing the role and future of biometrics in the US Army. In addition, Mr. Swindle has served for 12 years on the Department of Energy's Environmental Management Advisory Board (EMAB), which advises the Assistant Secretary for Environmental Management on policy and technical issues facing cleanup of radioactive and DOE sites. During his tenure with the EMAB, he has chaired the Contracting and Management Committee; was a member of the Technology Development and Transfer Committee, the Worker Health and Safety Committee, and the Ad Hoc Committee on Safety and Health Performance Measures. Mr. Swindle also currently serves as a senior technical advisor to the Department of Defense's Assistant to the Secretary of Defense; Nuclear, Chemical and Biological Defense Programs, and has been an advisor to the Assistant Deputy Undersecretary of Defense for Special Capabilities on Measurements and Signals Intelligence (MASINT) applications. He chaired the Critical Infrastructure Protection Strategy Review Group for the Office of Homeland Security's Senior Director for Preparedness and Prevention, and served as the Senior Technical Advisor to the Office of Homeland Security (OHS)/National Security Council's Select Review Group for Radiological Dispersion Device (RDD)/Improvised Nuclear Device (IND) Preparedness. He also chaired the OHS technical review group on Biological Defense Preparedness. Mr. Swindle is also a member of the Board of Directors and Executive Committee of the Professional Services Council (PSC), which represents the majority of Federal Contractors supporting US Government services business. He is a member of the Board of Directors for Bushmaster Firearms International and the Nevada Test Site Historical Foundation. He has over 100 technical publications to his credit.

Mr. Swindle is a registered Professional Engineer in seven states, and is married to the former Carolyn Knight; he has two daughters, Mary-Louise and Caroline. He has a B. S. Degree in Engineering Science from Tennessee Technological University, a Masters Degree in Nuclear Engineering from Virginia Polytechnic Institute and State University, and an M.B.A. in Industrial Management from the University of Tennessee, Knoxville, Tennessee. He currently resides in Leesburg, Virginia.
